Environmental associations with species richness across trophic groups

Negative Binomial regression estimates with 95% confidence intervals

Carnivores

Herbivores

Omnivores

River order 6
River order 7
River order 8
River order 9
Distance to river
River length
Average river discharge
Slope variability
Mean topographic position index
Mean terrain ruggedness index
Terrain ruggedness variability
Terrain roughness variability
Mean hillshade
Hillshade variability
Distance to forest refugia
Mean temperature
Temperature variability
Mean precipitation
Precipitation variability
Mean canopy height
Canopy height variability
Mean tree cover
Tree cover variability
Forest loss (2001–2020)
Mean soil clay content
Soil clay variability
Mean cation exchange capacity
CEC variability
Mean soil organic carbon
Soil organic carbon variability
Mean soil pH
Soil pH variability
mosaic_vegetation_richness
